

# Why You Should Buy White Label Garage Doors Instead of Manufacturing

## What are white label garage doors?

The term 'white label' refers to any kind of product that is produced by one company that features the branding of another, suggesting that they contributed to making it. We can supply our trade customers with garage door products complete with a sticker of your company's logo or anything you'd prefer.

## What are the benefits of white label garage doors?

### Personalised products

We can make minor adjustments, such as including your brand's logo. This gives customers the confidence that they're buying a product you're proud to put your name to.

### Grow your brand

Having your own branding placed on garage doors can lead to greater brand recognition, which in turn can see your brand start to grow.

### Sell products faster

All the white label garage doors that we supply have been manufactured to the highest possible standards. Therefore, your time and resources will be significantly reduced and products can be brought to market much faster.

### Professionally manufactured

As the product has been thoroughly tested and professionally manufactured, there is less risk for you when purchasing.

### Focus on your business

Not having to manufacture trade-branded garage doors yourself means that you can focus on the other aspects of your business.

## Why choose Tradedor?

Here at Tradedor, we've spent more than a decade providing trade customers across the UK with a whole range of garage doors, both branded and unbranded, tailoring our offering specifically to the customers you work with.

To sign up for a trade account or to find out more about what we do, get in touch with Tradedor today.
